

Alex Moreau

Senior Infrastructure Engineer

alex@moreau.dev · +44 7700 900123 · London, UK · github.com/alexmoreau · alexmoreau.dev

SUMMARY

Infrastructure engineer with eleven years on payment and ledger systems, most of it on the reliability side of teams that could not afford an outage.

STRENGTHS

Calm under paging

Ran the incident channel for the two largest outages of 2023 and wrote both reviews.

EXPERIENCE

Senior Infrastructure Engineer

Mar 2022 – Present

Stripe · London

- Rebuilt the ledger write path: p99 commit latency from 340ms to 45ms.
- Led 40 services off a shared Postgres primary, retiring the last SPOF in payments.

Go · Postgres · Kubernetes · Terraform

Platform Engineer

Jun 2019 – Feb 2022

Monzo · London

- Took the bank from 20 to 200 deploys a day, with no new approval step.
- Cut paging 60% by fixing three alerts rather than raising thresholds.

Go · Cassandra · AWS

Backend Engineer

Sep 2016 – May 2019

Deliveroo · London

Rider dispatch, through a period when order volume grew eight-fold.

EDUCATION

BSc Computer Science

2013 – 2016

University of Bristol

First Class Honours

SKILLS

Languages Go, Swift, Python, SQL

Infrastructure Kubernetes, Terraform, AWS, Postgres

Practice Incident response, Capacity planning, Mentoring

KEY ACHIEVEMENTS

Ledger write path rebuilt

p99 commit latency from 340ms to 45ms, with no change to the API.

Last single point of failure retired

Forty services moved off one Postgres primary without a customer-visible incident.

PROJECTS

ledgerfuzz

2023

Author · github.com/alexmoreau/ledgerfuzz

A property-based fuzzer for double-entry ledgers. In production at two banks.

CERTIFICATIONS

CKA — Certified Kubernetes Administrator

2021

CNCF

LANGUAGES

English Native
