alexmoreau.dev

> SUMMARY

Infrastructure engineer with eleven years on payment and ledger systems, most of it on the reliability side of teams that could not afford an outage.

> EXPERIENCE

Senior Infrastructure Engineer

Mar 2022 – Present

Stripe · London

- Rebuilt the ledger write path: p99 commit latency from 340ms to 45ms.
- Led 40 services off a shared Postgres primary, retiring the last SPOF in payments.

Go · Postgres · Kubernetes · Terraform

Platform Engineer

Jun 2019 – Feb 2022

Monzo · London

- Took the bank from 20 to 200 deploys a day, with no new approval step.
- Cut paging 60% by fixing three alerts rather than raising thresholds.

Go · Cassandra · AWS

Backend Engineer

Sep 2016 – May 2019

Deliveroo · London

Rider dispatch, through a period when order volume grew eight-fold.

> EDUCATION

BSc Computer Science

2013 – 2016

University of Bristol

First Class Honours

> SKILLS

Languages Go, Swift, Python, SQL

Infrastructure Kubernetes, Terraform, AWS, Postgres

Practice Incident response, Capacity planning, Mentoring

> PROJECTS

ledgerfuzz

2023

Author · github.com/alexmoreau/ledgerfuzz

A property-based fuzzer for double-entry ledgers. In production at two banks.
