Summary	Infrastructure engineer with eleven years on payment and ledger systems, most of it on the reliability side of teams that could not afford an outage.		
Experience	Senior Infrastructure Engineer Mar 2022 – Present		
	Stripe · London		
	- Rebuilt the ledger write path: p99 commit latency from 340ms to 45ms. - Led 40 services off a shared Postgres primary, retiring the last SPOF in payments.		
	Go · Postgres · Kubernetes · Terraform		
	Platform Engineer Jun 2019 – Feb 2022		
	Monzo · London		
	- Took the bank from 20 to 200 deploys a day, with no new approval step. - Cut paging 60% by fixing three alerts rather than raising thresholds.
