— SUMMARY

Infrastructure engineer with eleven years on payment and ledger systems, most of it on the reliability side of teams that could not afford an outage.

— EXPERIENCE

Mar 2022 – Present

Senior Infrastructure Engineer

Stripe · London

- Rebuilt the ledger write path: p99 commit latency from 340ms to 45ms.
- Led 40 services off a shared Postgres primary, retiring the last SPOF in payments.

Go · Postgres · Kubernetes · Terraform

Jun 2019 – Feb 2022

Platform Engineer

Monzo · London

- Took the bank from 20 to 200 deploys a day, with no new approval step.
- Cut paging 60% by fixing three alerts rather than raising thresholds.

Go · Cassandra · AWS

Sep 2016 – May 2019

Backend Engineer

Deliveroo · London

Rider dispatch, through a period when order volume grew eight-fold.
